

Kinderdance® dances to annual Continuing Education Conference.

Melbourne, FL, United States, 06/27/2008

The Melbourne-based Kinderdance International Inc. founders Carol Kay Harsell and Bernard Friedman will be joined by most of their 113 franchisees, employees, family and friends at the Crowne Plaza Hotel in Indialantic Fl. on July 17th through July 19th for an evening of fun, learning, and of course dance!

Franchisees from around the United States and 5 other countries will attend the event to enjoy the continuing education that the three day Kinderdance® conference brings through sharing sessions, roundtable discussions, and marketing strategies.

All franchisees and guests will also be treated to a local franchisee's class comprised of children 6-9 year old performing one of its five programs. "It is always so special to see the Kinderdance programs bring such smiles to the children as they perform", said Darlene Van Der Wal, Vice President / Operations for Kinderdance. "They learn how to learn while they learn to dance" she said.

The Melbourne-based Kinderdance International Inc. has been steadily expanding since its founding in 1979. Since then they have taught hundreds of thousands of children and now, each week, about 12,000 children participate in its programs. The company just awarded its newest area development franchise -- in Hong Kong -- and now has 113 franchises in 35 states and five other countries.

Kinderdance programs emphasize self-confidence and self-esteem in children by teaching them to share, lead, interact and respond to others' needs, as well as their own. The skills are taught using dance, motor development, fitness and creative thinking, combined with education in numbers, colors, shapes and words. Movements focus on motor development, body awareness and gymnastics by using fun music and fitness routines. The company offers the educational movement programs on site to child-care centers recreational centers, churches, fitness centers, and many other viable locations.
